Allow us to introduce ourselves...

We are a globally active family company whose sustainable and responsible actions contribute to improved living standards. We are an attractive employer with a value-oriented corporate culture based on trust, appreciation and continuous improvement.

Weidmann Electrical Technology has been at the heart of the global transformer industry for over 140 years. With deep rooted knowledge in the design, development and operation of transformers, Weidmann is a leading integrated solutions provider for specialized product and services in the energy sector.

The role... The R&D laboratory is comprised of four main laboratories; each laboratory provides a unique opportunity for a specialized skill set. The laboratory technician will be primarily focused in one or two areas but is responsible for a basic understanding of all aspects of test that are conducted in the R&D laboratory.

How you'll make an impact...

- Assist other technicians as needed and provide cross-functional support.
- Conduct basic statistical analysis of test data.
- Draft clear and concise lab reports.
- Demonstrate proficiency in Microsoft Word and Excel.
- Understand measurement system evaluations and identify sources of error.
- Comply with customer and business requirements, forwarding only known good work.
- Promptly address problems, errors, or defects in products, documentation, procedures, or materials.
- Support continual improvement projects and engage in preventive and corrective actions.
- Halt or change processes not achieving planned results.
- Provide laboratory analysis to support manufacturing, customers, and New Product Development.
- Maintain lab equipment effectively.
- Perform tests per specified standards, providing interpretation and conclusions.

What do you bring...

- High school / Trade School Diploma required.
- Must be able to meet the physical requirements in accordance with the Essential Function Job Analysis.
- A working knowledge of Word and Excel.
- Previous experience in laboratory setting: performing tests, evaluating data, and writing reports preferred.

What do we offer?

- Medical insurance with an accompanying health savings account, vision and dental insurance, PTO.
- 401k plan with company match, Company paid basic life and AD&D insurance, STD and LTD
- Employee assistance program
- Employee referral program
- Additional company programs include: Wellness, clothing allowance, computer loan, and tuition reimbursement
