

Finishing Department Technician

Atlas Gunworks

Location: Shelburne, VT

Job Type: Full-Time

Shift Type: First, Split or Second

About Us

Atlas Gunworks is an industry leader in the premium handgun market. We've grown rapidly by bringing fresh thinking, higher quality standards, and shorter lead times to a historic industry.

Every Atlas gun is machined from billet aluminum and steel. We combine the art of hand metal working with our state-of-the-art, multi-axis CNC machine shop.

Every Atlas gun is hand-built; the team assembles and fits our pistols one at a time. If you're interested in being a part of the team, please see our current job postings.

What You'll Do

As a Finishing Department Technician, you'll ensure all teams have the resources they need to be successful at Atlas Gunworks. Your responsibilities will include:

- **Tumbling:** Operating tumbling equipment using various methods and formulas.
- **Sand Blasting:** Blasting parts to ensure a clean finish to proceed to coating.
- **Parts Prep:** Pre-blend various small parts for the sanding team, as well as blend core parts for a flush even finish.
- **Disassembly:** Disassemble guns and package them to go to the finishing team.
- **Maintenance:** Perform routine maintenance on various pieces of equipment.
- **Document & Package:** Prepare gun kits and complete proper documentation.

What We're Looking For

Our ideal candidate is motivated, detail-driven, and eager to develop their craft. Here's what you'll need to succeed:

Skills and Experience

- Visual acuity and attention to detail—every millimeter matters.
- Ability to focus on tasks at hand and see them to completion
- A proactive attitude and ability to follow detailed instructions.
- Manual dexterity and comfort working with small parts and precision tools.
